

VON ARDENNE 

DREVA 600 UNIVERSAL PVD HARD COATING SYSTEM

VON

DREVA 600
UNIVERSAL PVD HARD COATING SYSTEM

DREVA 600

UNIVERSAL PVD HARD COATING SYSTEM

MAIN FEATURES

- Field proven, reliable and refined equipment concept
- Design with two large vacuum chamber doors in which the coating sources are installed
- 6 or 12 VA-proprietary round arc sources with shutters and power supplies
- Option: Sputter cathodes (planar and tubular), including HiPIMS
- Option: Hollow cathode for plasma pre-treatment, heating and ion assisted deposition
- Radiative substrate heaters for a process temperature of up to 400°C
- Usable coating volume: Ø 500 mm x 500 mm
- Internal chamber size: Ø 700 mm x 875 mm
- Customized part holder for various tool and component designs
- Low noise level of about 65 dBA
- Fully automated control system and data logging which can be accessed via VPN
- Gas inlet system for up to 5 process gases (standard gases are Ar, N₂ and Acetylene)

APPLICATIONS

- Hard coatings of tools and parts
- Decorative hard coatings

TECHNICAL ADVANTAGES

- 1-fold, 2-fold and 3-fold substrate rotation according to application
- Simple operation via editable recipes
- Access of two employees in parallel through two large vacuum chamber doors
- Remote diagnostics for troubleshooting over the internet (VPN)
- Backing pumps are maintained on a service frame without crane or forklift
- Simple & safe technology transfer from lab systems to customer's DREVA 600
- Shipping of the DREVA 600 including accessories on a 18t truck or 20ft high cube container
- Relocation on the shop floor is possible just with a forklift
- Plug and play installation by connecting cooling water, process gases, electricity, compressed air and exhaust at a single spot
- Hard coating productivity of up to 1,040 Ø 8 mm drills per batch on < 5 m² floorspace

CUSTOMER BENEFITS

- Modular configuration enables application-specific adaptation
- Customer-specific substrate carriers
- Easy access to all relevant components for system operation and maintenance
- Straightforward project execution

RANGE OF COATINGS

- Hard coating of tools and parts as mono- and multi-layer: AlCrN, AlTiN, AlTiSiN, CrN, TiAlN, TiCN, TiN, TiSiN, WC (only sputtered)
- Decorative hard coatings: Grey, Gold, French Gold, Bronze, Champagne, Copper, Brown, Mocca, Anthracite, Black
